

NEW SECURITY CAMERAS AND APPS

May 24th, 2023

After quite some time, we have replaced all the security cameras with the latest and greatest we could find. Along with the new cameras, we have a new app that makes viewing easier, faster, and is packed with new features such as “pinch to zoom”.

We have added 4 new cameras. 2 new cameras on each of the dumpsters so we can monitor the overflowing issue that has cost us hundreds of dollars in extra fees from the disposal company. We have also added 2 cameras to the wash area and dump stations. We now have a total of 20 cameras from the original 16

Here is how to download and configure your new app. This applies to both Apple and Android phones and devices.

App Name: **Guarding Vision**

Log In – **Eucalyptusstorage@gmail.com**
Password – **Premier123**
Encrypted Key – **12345678**

This app is far different than previous apps, so be patient with it. I was a little frustrated at first, but once I had that “**AH HA**” moment, all was good.
